

Industrial Visit

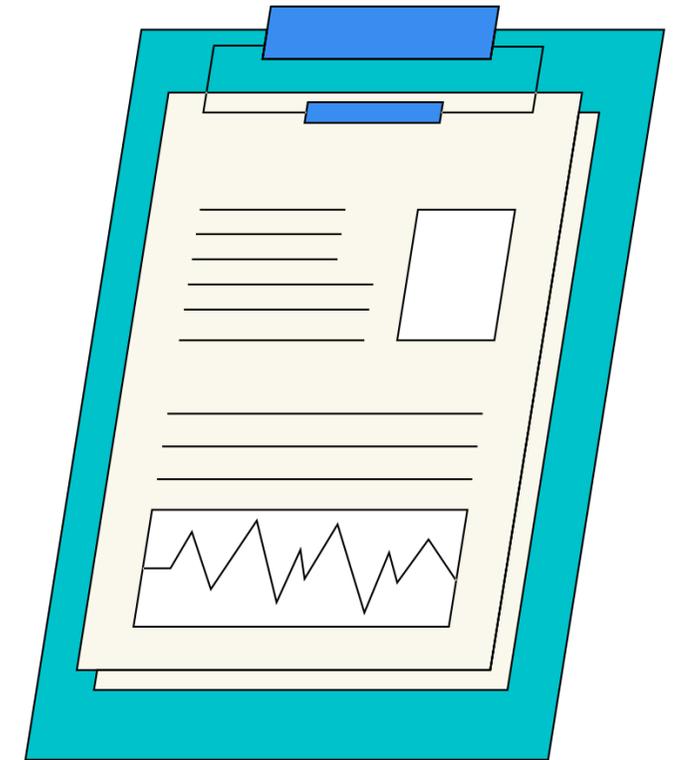

Andhajan Mandal

Biomedical Department

About Event

- Event: Industrial Visit
- Place: Andhajan Mandal
- Date: 26/11/2025 Wednesday
- Students: 30
- Faculty: 03 (J S Shah, S C Dabhi, H B Parmar & D K Patel)

Objective of Visit

- The objective of the visit to Andhajan Mandal for diploma biomedical students specializing in Rehabilitation Engineering is to gain practical insights into the challenges and solutions related to providing assistive devices and technologies for individuals with disabilities.
- By observing real-life scenarios and interacting with both users and professionals in the field, students can deepen their understanding of the diverse needs of people with disabilities and how technology can enhance their quality of life.
- Additionally, the visit aims to expose students to various assistive devices, prosthetics, and adaptive technologies, fostering their critical thinking and problem-solving skills in designing effective rehabilitation solutions.

About BPA

The Blind People's Association (India) is one of the largest NGOs in India working for the entire continuum of services for all categories of Persons with Disabilities (PwDs).

BPA is a multi-campus organization with 15 campuses all over Gujarat and one in Rajasthan. It also has 13 Vision Centres and 10 Day Care Centres for Persons with Multiple Disabilities and Deafblindness in addition to the above.

Technology Museum

Assistive Technology is a fast growing and fast changing field. In recent years, many new affordable tools and devices have been developed to bring ease independence and competence in the life of persons with blindness and low vision. They are developed in various parts of the country. There was a strong need for bringing all these tools, applications and devices under one roof to allow users to have First-hand experience of these tools apps and devices and to make appropriate choice to address their need and overcome their problems. With the generous support of Union Bank, Blind People's Association started The First Technology Museum in 2016.

VISION-IN-THE-DARK®

A journey into the world of blindness

Students also experienced Vision in the dark. It is a permanent exhibition, the only one of its kind, for helping people to understand blindness through 7000 sq.ft of total darkness with many experiences – a village, park, zoo, theatre and other experiences that sighted people have every day.

Glimpse of Event

This museum has a collection of equipment's for mobility, health, education, reading and writing, visual graphs, and other areas of every-day life. The museum also has a collection of low vision devices and apps.
